ENCompass is Coming

In July 2004, Plough Library went live with the Voyager Online Catalog, that is a far cry from the old text-based system it replaced. It also brought many new features including the My Account feature that allows patrons to renew books online. We are now adding ENCompass. The server, Athena, has been ordered and training is being scheduled. The librarians will soon begin work to implement our latest technology provided by the benefactor responsible for our Voyager catalog. ENCompass, another product from Endeavor Information Systems, will allow our users to search several databases at one time. For example, I will be able to search Business Source Premier and General Business File International by executing one search. The results will be returned relevancy-ranked with the duplicate citations removed. Any full text will be immediately available. User training will be available in the summer and fall.

CBU President Br. Stan Sobczyk, right with Sam and Beverly Ross

The Christian Brothers University Art Gallery was recently renamed and dedicated. It was named in honor of Sam and Beverly Ross. Sam Ross, creator of the Fantastic Sam's hair salons, and his wife, Beverly, have been involved with CBU for many years. In addition to his business career, Sam Ross also taught a class in entrepreneurship at CBU. The Rosses have given the university their art collection, now valued at more than \$1 million.

Professor Baker's Hand Grenade

Check out Br. Justin Lucian's new novel *Professor Baker's*

Hand Grenade. But not in our library yet!

Br. Justin's book sold so well at the book signing Feb. 22 in the East Lounge, that the library did not get a chance to purchase one! We will definitely be first in line for the next signing. Br. Justin has generously donated all the proceeds from his book to the library for the purchase of new materials. To date we have had more than \$1000 deposited to our book account! Thank you, Br. Justin!

Controversial and exhaustively researched, gender expert Warren Farrell's latest book *Why Men Earn More* takes as its stunning argument the idea that bias-based unequal pay for women is largely a myth, and that women are most often paid less than men not because they are discriminated against, but because they have made lifestyle choices that affect their ability to earn.

Why Men Earn More argues that while discrimination sometimes plays a part, both men and women unconsciously make trade-offs that affect how much they earn. Farrell clearly defines the 25 different workplace choices that affect women's and men's incomes—including putting in more hours at work, taking riskier jobs or more hazardous assignments, being willing to change location, and training for technical jobs that involve less people contact—and provides readers with specific, research-supported ways for women to earn higher pay.

Sam Ross started Fantastic Sam's in 1974. The company was named one of the nation's fastest-growing franchises in the 1980s and by 1989 had grown to 1,400 locations in North America. Later, salons opened in Japan, Singapore, Thailand and Taiwan. Ross sold the business in 1990.

The gallery features several exhibitions each year. It is on the lower level of Plough Library.

Eating Disorder Collection

Library Hosts Eating Disorder Collection for National Eating Disorder Week

February 27-March 5, 2005 was National Eating Disorder Awareness Week. The Delta Chi Chapter of Alpha Sigma Tau, in recognition of their local service project, opened the "Every Body is Beautiful" resource collection on the third floor of Plough Library. The books and other materials may be checked out on the honor system. This helps to protect the privacy of students who need the resources.

The Collection indicates that the most common eating disorders are:

Anorexia Nervosa: excessive exercise, restriction of food or calories, and or purging.

Binge-Eating Disorder: recurrent episodes of bingeing without purging.

Bulimia Nervosa: recurrent episodes of bingeing and purging.
