Student would take 126 hours to complete this degree program due to curricular constraints.		
NOTES:		
¹ Student would be required to take the listed courses in order to fulfill general education curricular requirements at CBU.		
² Student would be required to take the listed courses in order to fulfill general education curricular requirements at CBU.		
³ Because CBU does not accept credit for MATH 1630 as our Finite Math, students would be required to take a higher level MATH.		
⁴ Because our Business degree programs only require 4 hours of Natural Science, the 4 additional hours will count as free elective hours.		
⁵ We require both Principles I & II to count for ACCT 260; therefore 3 hours will fall into a free elective category.		
⁶ For the guided electives, the student would need to take MGMT 1000, the equivalent to our BUS 103, which is a 3 hour course. The additional hour of guided electives would be the student's choice
