

SAFETY GUIDELINES FOR ACTIVE SHOOTER SITUATIONS ON CAMPUS

Clearly, response to an active shooter is one of the most dynamic situations that anyone will ever face. Prior to the arrival of police personnel, how you respond to an active shooter will be dictated by the specific circumstances of the encounter, keeping in mind there could be more than one shooter involved in the same situation. If you find yourself in an active shooter situation, try to remain as calm as possible and use these suggested actions to help you plan a strategy for survival. Keep in mind, the entire area is still a crime scene.

An Active Shooter event cannot be predicted to follow any pattern and the response to an active shooter is one of the most dynamic situations that anyone will ever face.

An individual must use his/her own discretion during an active shooter event as to whether he/she chooses to run to safety or remain in place. However, best practices for an active shooter event are listed below.

The potential for a school shooting exists on every campus throughout the United States. Although the possession of firearms on or around the campus is prohibited, previous local and national shootings dictate the importance and need for a response plan. In the event you observe an individual with any type of weapon on the campus, immediately contact Campus Police & Safety at 901-321-3550 or call 911.

Develop a Survival Mindset

Awareness and Preparation: Take time to understand your surroundings and environment before an emergency occurs. Ask yourself, "What if?" questions and develop a plan.

In an Active Shooter Emergency

Make a decision, trusting your instincts, to take action to protect yourself to survive the situation. You generally will have three options:

Run or Evacuate

- If you can and you deem it safe, Get Out and get to a safe place.
- Attempt to evacuate
- Have an escape route and plan
- Leave your belongings
- Keep your hands visible

Hide

- Find a place to hide. Find protection.
- Block entry and lock doors
- Remain quiet and silence your cell phone or pager
- Close the blinds, turn off the lights, remain quiet, spread out away from other individuals, and move behind available cover. Stay on the floor, away from doors or windows, and do not peek out to see what may be happening.
- If possible and safe to do so, report the location of the assailant.

SAFETY GUIDELINES FOR ACTIVE SHOOTER SITUATIONS ON CAMPUS

- Wait patiently until a uniformed police officer, or a university official known to you, provides an "all-clear".
- Unfamiliar voices may be an active shooter trying to lure you from safety; do not respond to voice commands until you can verify with certainty that they are being issued by a police officer or university official.
- Attempts to rescue people should only be attempted if it can be accomplished without further endangering the persons inside a secured area.
- Depending on circumstances, consideration may also be given to exiting ground floor windows as safely and quietly as possible.

If an active shooter enters your office or classroom, you should:

- Try to remain calm.
- Try not to do anything that will provoke the active shooter.
- If there is no possibility of escape or hiding, only as a last resort when it is imminent that your life is in danger should you make a personal choice to attempt to negotiate with or overpower the assailant(s).
- Call 911, if possible, and provide the information previously listed.
- If the active shooter(s) leaves the area, barricade the room or proceed to a safer location.

If Suspect is in Close Proximity

- An individual must use his/her own discretion about when he or she must engage a shooter for survival.
- Generally, one can lie motionless and pretend to be unconscious or confront the individual.
- Make a plan as to how you will survive the situation.
- Make a total commitment to action and act as a team with others if possible.
- Do whatever is necessary to survive the situation.

If you are in an outside area and encounter an active shooter, you should:

- Try to remain calm.
- Move away from the active shooter or the sounds of gunshot(s) and/or explosion(s).
- Look for appropriate locations for cover/protection, i.e. brick walls, retaining walls, large trees, parked vehicles, or any other object that may stop bullet penetration. When you reach a place of relative safety, stay down and do not move. Do not peek or raise your head in an effort to see what may be happening.
- Drop to the ground immediately, face down as flat as possible. If within 15-20 feet of a safe place or cover, duck and run to it.
- Move or crawl away from gunfire, trying to utilize any obstructions between you and the gunfire. Remember that many objects of cover may conceal you from sight, but may not be bulletproof.

SAFETY GUIDELINES FOR ACTIVE SHOOTER SITUATIONS ON CAMPUS

Police officers responding to an active shooter are trained to proceed immediately to the area in which shots were last heard in order to stop the shooting as quickly as possible. The first responding officers may be in teams; they may be dressed in normal patrol uniforms, or they may be wearing external ballistic vests and Kevlar helmets or other tactical gear. The officers may be armed with rifles, shotguns or handguns. Do exactly as the officers instruct. The first responding officers will be focused on stopping the active shooter and creating a safe environment for medical assistance to be brought in to aid the injured.

Calling for Help

- If safe to do so, stop and take time to get a good description of the criminal. Note height, weight, sex, race, approximate age, clothing, method and direction of travel, and his/her name, if known. - Even though you may think the questioning is wasting valuable time, the information you provide will enable Public Safety dispatchers to dispatch officers and other emergency personnel safely and effectively.

During your call to Police, you will be asked questions, such as:

- What exactly is happening and how do you know? Is it still happening?
- Where is the suspect now? What was his/her last known direction of travel?
- Are there any wounded and how many?

 - Knife or other dangerous weapons
